

Philips
Mini Audio System

FW-C399

MAX Sound

for instant power boost

Powerful sound you can hear and feel

- Bass Reflex Speaker System delivers a powerful, deeper bass
- 2x120W RMS/2x240 music power/3000W PMPO

Continuous enjoyment of your favorite music

- 3-disc changer for convenient multi-disc playback
- Dual Logic Tape Deck with auto replay

Personalized sound settings

- Incredible Surround™ for enhanced audio enjoyment
- Digital Sound Control for optimized music style settings
- Dynamic Bass Boost for deep and dramatic sound
- Virtual Environment Control allows simulated sound settings

PHILIPS

Specifications

Sound

- Output Power: 3000W PMOP
- Sound Enhancement: MAX Sound, Incredible Surround, Dynamic Bass Boost 3 steps, Digital Sound Control 4 modes, Virtual Ambience Control

Loudspeakers

- Main Speaker: 3 way, Bass Reflex Speaker System, 5.25" woofer, 2" tweeter, 1" polydome piezo, Speaker grilles detachable

Audio Playback

- Playback Media: CD, CD-R, CD-RW
- Loader Type: 3 CD Carousel
- Number of Discs: 3
- Disc Playback Modes: Repeat/one/disk/program, Shuffle Play, 99-Track Programmable
- Cassette Deck Technology: Full Logical
- Number of decks: 2
- Cassette Playback Modes: Continuous Play, Fast Wind/Rewind, Full Auto Stop

Audio Recording

- Tape Recording Enhancement: Automatic Recording Level, CD Synchro Start Recording

Tuner/Reception/Transmission

- Tuner Bands: FM, MW
- Tuner Enhancements: Auto Store, Easy Set (Plug &

Play)

Connectivity

- Aux in: Line in
- Headphone: 3.5 mm
- Other connections: FM Antenna, MW Antenna
- Microphone: Microphone socket

Convenience

- Alarms: CD Alarm, Radio Alarm, Sleep timer
- Clock: On main display
- Display Type: FTD
- Eco Power Standby: 1 watt
- Indications: DIM mode

Accessories

- Included accessories: AC Power Cord, FM/MW Antenna
- Remote control: 24-key

Dimensions

- Set dimensions (W x H x D): 265 x 310 x 380 mm
- Main speaker dimensions (W x H x D): 210 x 310 x 235 mm
- Packaging dimensions (W x H x D): 619 x 410 x 474 mm
- Weight incl. Packaging: 15 kg

Issue date 2014-02-10

Version: 1.0.2

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

2x120W RMS/3000W PMPO

2x120W RMS/2x240 music power/3000W PMPO

3-disc changer

With a three-disc changer for music playback, you can choose between three different CDs inside the device at any one time. This convenient feature allows you to savor a variety of music while saving you precious time from changing CDs frequently.

Dual Logic Tape Deck

Dual Logic Tape Deck with auto replay

Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Virtual Environment Control

Virtual Environment Control (VEC) creates a virtual sound environment in which the listener can experience music as it would sound in various simulated sound settings. VEC sound settings digitally mimic the acoustical effects that are characteristic of special rooms and environments such as Hall, Cinema, and Concert. By recreating the sound ambience of different environments and settings, VEC dramatically enhances enjoyment of your favorite music.
