## Impressive power

- MAX Sound for instant power boost
- 2x165W RMS/5500W PMPO

**PHILIPS**

# Specifications

# Highlights

## Gameport

Gameport is an easy connection solution that links your game console directly to your audio system for enhanced gaming sound quality. Game Sound Mode offers 3 exciting sound settings - Speed mode gets the adrenaline going in high-speed driving and flying games while Punch mode adds power to the punch in hand-to-hand combat games. Finally Blast mode lets you experience the full explosive effects of battle games. A Game Mix function, MIX-IT, available on Mini Hi-Fi Systems, allows game sounds to be mixed with a favorite CD track, radio station or external audio player.

## Song title display

Song title and playlist name display for easy navigation

## USB PC Link

USB PC Link lets you playback your MP3 music through the powerful speakers of Philips sound systems instead of your PC speakers. By connecting a PC directly to your audio system with a USB cable, you can stream MP3 music directly to your sound system, transforming your PC into a 'massive MP3 music jukebox'. The control buttons on the sound system and remote control provide easy navigation and control of the MP3 music stored in the MusicMatch Playlist. You can also view song title information as well as elapsed play time on the sound system's display.

## MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.
