Power

- Standby power consumption: < 1W

Highlights

Gameport

Gameport is an easy connection solution that links your game console directly to your audio system for enhanced gaming sound quality. Game Sound Mode offers 3 exciting sound settings - Speed mode gets the adrenaline going in high-speed driving and flying games while Punch mode adds power to the punch in hand-to-hand combat games. Finally Blast mode lets you experience the full explosive effects of battle games. A Game Mix function, MIX-IT, available on Mini Hi-Fi Systems, allows game sounds to be mixed with a favorite CD track, radio station or external audio player.

Song title display

Song title and playlist name display for easy navigation

USB PC Link

USB PC Link lets you playback your MP3 music through the powerful speakers of Philips sound systems instead of your PC speakers. By connecting a PC directly to your audio system with a USB cable, you can stream MP3 music directly to your sound system, transforming your PC into a 'massive MP3 music jukebox'. The control buttons on the sound system and remote control provide easy navigation and control of the MP3 music stored in the MusicMatch Playlist. You can also view song title information as well as elapsed play time on the sound system's display.
