Let's make things better.

PHILIPS

Sound Enhancement

80 Watts Total Power

40 Watts continuous RMS power output per channel, at 6 Ohms, from 40 Hz - 16 kHz, with no more than 10% Total Harmonic Distortion (THD).

Integrated Audio CD Recorder

Make your own CD's with Bit-perfect digital quality.

Max Sound for instant power boost

A one-touch button sound setting for instant power boost which including extra bass performance and sound pressure level. It has designed to give extra boost with Digital Sound Control and Virtual Ambience Control sound settings.

Virtual Ambience control (VAC) and Digital Sound Control (DSC)

Virtual Ambience Control allows you to recreate the ambience and environment in which you want to listen : Hall, Cinema, Arcade, Concert, Disco or Cyber.

Digital Sound Control offers different sound settings tailored for specific musical styles : Digital, Rock, Pop, NewAge, Classic or Electric.

Incredible Surround™

An exciting, new, psycho-acoustic method of widening the stereo spatial image especially suited for applications with limited separation of left and right speakers.

3-Way Bass Reflex Speaker System

Equipped with one 5 1/4" woofer for smooth low and mid range reproduction, one 2 1/2" ferro-fluid cooled tweeter and one 1" polydome tweeter for crisp high tones.

Automatic Digital Record Level Control

During recording from the internal CDC, the unit automatically equalises volume levels between CDs, so that there are no unpleasant volume jumps during playback of the recorded CD.

Subwoofer Ready

Affords easy access to greater dimensions in sound with output signals available for connection to a subwoofer.

Design

Design Concept

The expressive design radiates the technology and power contained in this product. The CD Recorder drawer is clearly the central feature, supported by the set controls structured on the recording panel for optimal controllability and easy to use.

Double, Oversized, MultiColor FTD Displays

These large displays are styled like a car-dashboard for instant and easy readability at any distance. The multi-color format makes it easy to recognize different functions at a glance.

Convenience

Double Speed Recording from CD

Make your own CD in half the normal listening time, while keeping bit-for-bit perfect quality.

Simplified Recording Modes

Copy CD duplicates an entire CD, while Compile CD is perfect for simple multi-disc compilations.

MP3 Playback

You can download MP3 songs from the internet on a PC and record them on a CD. This special "MP3-CD" can now be played on this Audio CD Recorder. One MP3-CD can carry up to 12 hours of music (at 128 kbps). This set is designed to playback MP3-CDs recorded with various quality levels (32 kbps to 320 kbps or even variable bit-rates).

Automatic Digital Record Level Control

During recording from the internal CDC, the unit automatically equalises volume levels between CDs, so that there are no unpleasant volume jumps during playback of the recorded CD.

4 Disc Changer mode

The 4-disc changer mode uses all decks for playback or shuffle, to give you longer listening pleasure.

CD-Text

No more need to look-up the track you want to play or record in the CD inlay booklet, simply select the track by name from the display, directly from the disc. The display can show both artist and title for the entire album as well as individual tracks. With the CDR Mini HiFi System, you can also create your own CD Text information for e.g. your own compilations.

Integrated digital tuner

Listen and record your favourite radio stations (record in FM only).

Eco Power Standby mode (<1 watt)

Most systems consume 10-15 watts just on standby. Philips systems consume less than 1 watt of energy on standby for big saving to the listener.

Plays CD, CD-R and CD-RW discs

The player offers 100% playback guarantee of CD, CD-Recordable and CD-Rewritable CD's over the entire lifetime of the player. Even CD-RW audio recordings on computers can be used.

31-key Remote Control

The ergonomically styled remote control gives you access to all essential functions like CD, CDR and sound enhancement features including MUTE, Digital Sound Control (DSC), Virtual Ambience Control (VAC), Incredible Surround™ and Max Sound ON/OFF.

CD Synchro CD Recording

Make a simple synchronised start recording from either analog or digital sources.

Inputs & Outputs

1 x Digital Coax Input

A digital input is foreseen to connect digital sound sources. The built-in sample rate converter ensures that a wide range of sources can be connected (e.g. CD players, DVD players, DAT players etc.).

1 x Analog Input

An analog input is foreseen to connect analog sound sources (e.g. phono, CD, Tape, etc.).

1 x Analog Line Output

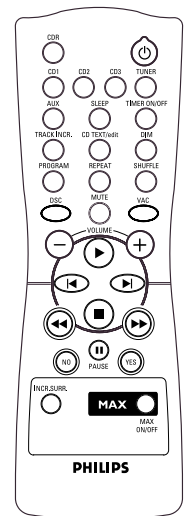

An analog output connection is foreseen to enable analog recordings from any of the analog inputs.

1 x Headphone Jack

Plug in a set of stereo headphones and enjoy your favorite CD, cassette, or radio station without disturbing other family members in the room. This convenient feature allows different people in your household to use different electronic entertainment media without interference.

1 x Subwoofer Out Connector

Offers easy access to greater dimensions in sound with output signals available for connection to a subwoofer.

UPC Code: 0 37849 90931 7
