

# PHILIPS

## Steam iron

### EasySpeed

Steam 25g/min;90g steam boost

Non-stick soleplate

Anti-calc

2000 Watts

GC1026/30

## Fast, from start to finish

### 3 ways to speed up your ironing

This EasySpeed iron speeds up your ironing thanks to: triple precision tip, even heat distribution across the soleplate and continuous steam.

#### **Easily removes creases**

- Power up to 2000 W enabling constant high steam output
- Steam boost up to 90 g for the most stubborn creases
- Continuous steam up to 25 g/m for good crease removal
- Non-stick soleplate coating
- Vertical steam for crease removal in hanging fabrics

#### **Longer lifetime**

- Calc clean slider to easily remove scale out of your iron

#### **Comfortable ironing**

- Drip-stop system keeps your garments spotless while ironing
- Triple precision tip for optimal control and visibility
- Even steam distribution for efficient ironing
- A fine spray evenly moistens the fabric

# Highlights

## Power up to 2000 W

Power up to 2000 W enables constant high steam output.

## Steam boost up to 90 g

The iron's 90 g steam boost enables you to easily remove even the most stubborn creases.

## Continuous steam up to 25 g/m

Continuous steam up to 25 g/m for good crease removal.

## Non-stick soleplate

The soleplate of your Philips iron is coated with a special non-stick layer for good gliding performance on all fabrics.

## Vertical steam

This Philips iron has a vertical steam function, for crease removal in hanging fabrics.

## Calc clean slider

This steam iron can be operated with normal tap water and the calc clean slider makes it easy to remove any built-up scale out of your iron. To maintain the performance of your Philips steam iron, you should use this scale clean function once a month when using normal tap water.

## Drip stop system

Drip Stop system lets you iron delicate fabrics at low temperatures without having to worry about stains from water droplets.

## Triple precision tip

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.

## Even steam distribution

Thanks to the carefully crafted soleplate design, the steam is distributed evenly across the soleplate. This way you need less strokes to evenly moisten the garment and therefore less time to complete the ironing.

## Spray

The spray function produces a fine mist that evenly moistens the fabric, making it easier to iron out creases.
