# Highlights

## Clothes hanger

No need to look for a place around you to hang your freshly ironed shirts. You can hang garments directly after ironing on the convenient hanging rail.

## Multi-layered board cover

The board cover is made of 100% cotton and is supported by foam and felt layers. This combination provides a comfortable and smooth ironing surface.

## Transport lock and feet caps

Transport lock prevents accidental collapsing of the board during ironing and also keeps the board closed during storage. The ironing board is supported by a double-leg construction with anti-slip feet caps that provides extra stability.

## XL Board and XL Tray

Iron more in one go with the Philips XL board shape (120 x 45 cm). It is also ideal for ironing big items such as bed linen and tablecloths. The stable and extra-large iron tray is perfect for steam generators. It is also heat resistant and can be safely used with steam irons.

## AquaBlock anti-drip cover

AquaBlock is a unique technology that prevents condensed steam from dripping onto the floor, making this board cover the ideal ironing surface for steam generator irons.

## 1 kg Lighter

The ironing board is now 1 kg lighter compared to the previous version for more convenient movement before your ironing session

## Ironing with 60% less noise

The ironing experience is more convenient with the ironing board cover that provides quieter ironing with a 60% noise reduction in sound power versus a multilayer board cover
