

Philips PerfectCare PowerLife Steam Iron

Now with the Philips PerfectCare PowerLife steam iron, you can iron everything from jeans to silk in one go with OptimalTEMP technology giving you the perfect combination of heat and steam – for faster crease removal with no risk of burn or shine marks. The ECO mode allows you to save energy by using a reduced amount of steam, still sufficient to iron all your garment. The product comes in packaging made with recycled materials.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Power: 2200-2600 Watt
- ECO Mode: Yes
- Auto-Shut Off: Yes
- Off Mode: 0 Watt
- Standby Mode: 0.25 Watt
