1 Your rice cooker

Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.Philips.com/welcome.

2 Important

Read this user manual carefully before you use the rice cooker and save it for future reference.

Danger

• Do not immerse the rice cooker in water; nor rinse it under the tap.

Warning

• Check if the voltage indicated on the rice cooker corresponds to the local power voltage before you connect it.
• Only connect the rice cooker to a grounded power outlet. Always make sure that the plug is inserted firmly into the power outlet.
• Do not use the appliance if the plug, the power cord, the inner pot, the sealing ring, or the main body is damaged.
• Make sure that the damaged power cord is replaced by Philips, a service center authorized by Philips or similarly qualified persons in order to avoid a hazard.
• The appliance is not intended to be operated by means of an external timer or a separate remote-control system.
• The appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
• Children should be supervised to make sure that they do not play with the rice cooker.
• Keep the power cord out of the reach of children. Do not let the power cord hang over the edge of the table or worktop on which the rice cooker stands.
• Make sure the heating element, the temperature sensor, and the outside of the inner pot are clean and dry before you put the plug in the power outlet.
• Do not plug in the rice cooker or press the control lever with wet hands.

Caution

• Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.
• Do not expose the rice cooker to high temperatures, nor place it on a working or still hot stove or cooker.
• Do not expose the rice cooker to direct sunlight.
• Place the rice cooker on a stable, horizontal, and level surface.
• Always put the inner pot in the rice cooker before you put the plug in the power outlet and switch it on.
• Do not place the inner pot directly over an open fire to cook rice.
• Do not lift and move the rice cooker while it is operating.
• Do not exceed the maximum water level indicated in the inner pot to prevent overflow.
