

# Philips Senseo® Switch 3in1 Pod and filter coffee machine

Brew your favorite big jug of filter coffee to share, or enjoy just a cup for you with the finest crema layer from one of the various Senseo blends. Choose between a long smooth mug, a medium or short and intense cup of pad coffee.

## Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

 <h3>Energy</h3> <ul style="list-style-type: none"> <li>• Max power consumption: 1450W</li> <li>• Annual energy consumption: 26kWh*</li> <li>• Low power energy consumption: &lt;0.15W</li> <li>• Automatic shut off: direct after brew</li> </ul>	 <h3>Packaging</h3> <ul style="list-style-type: none"> <li>• Minimal of 90% recycled cardboard paper</li> <li>• No use of polyvinylchloride (PVC), expanded polystyrene (EPS) in packaging</li> </ul>
 <h3>Substances</h3> <ul style="list-style-type: none"> <li>• Plastics in contact with water and coffee are free of bisphenol A (BPA)</li> <li>• The product is free of PVC (excluding the power cord)</li> </ul>	 <h3>Circularity</h3> <ul style="list-style-type: none"> <li>• Contains up to 200 gram recycled plastic</li> <li>• Durability test: machine is tested for more than 10.000 cups of coffee</li> </ul>

\* Energy consumption measured according to IEC 60661. Based on daily usage, including warm up of device and brewing 4 cups of coffee.
