

Philips 2000 Series Super automatic espresso machine

Taste the aroma of your favorite coffee beans. Whatever blend of coffee you like, you can grind the beans fresh on the spot extracting maximum flavors thanks to the long-lasting ceramic grinders that don't overheat the beans. And with the manual frother, just top your coffee with creamy milk foam.

Our eco passport*

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Max power consumption: 1300W
- Annual energy consumption: 71kWh/year*
- Standby energy consumption: <0,5W
- Automatic shut off: max after 30 minutes
