One-touch espresso and coffee

With 100% ceramic grinders

Only the Saeco Intelia super-automatic espresso machine offers you the perfect Espresso experience: easy to use, easy to customise and easy to clean. Prepare a tasty Espresso or creamy milk froth with just a touch of a button.

Authentic Italian coffee perfection
- Delicious milk froth thanks to the classic milk frother
- Coffee without waiting thanks to the quick-heat boiler
- Coffee without burnt taste thanks to 100% ceramic grinders

Set the beverages to suit your taste
- Save your favourite coffee length and strength
- Play with the coffee's richness with our adjustable grinders
- Avoid heat loss and fit every cup with our adjustable spout

Easy to clean and maintain
- Always a clean machine thanks to auto-clean and descaling
- Easy cleaning thanks to removable brewing group
- Easy cleaning thanks to dishwasher-safe parts

PHILIPS
Saeco, a Philips brand

Highlights

100% ceramic grinders

This espresso machine is equipped with 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean, for an impeccable espresso. Ceramic also ensures long-lasting performance and totally silent operation.

Quick-heat boiler

The Saeco quick-heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother that baristas call a "Pannarello". It dispenses steam and is immersed in milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Saves coffee length and strength

You will always get a perfect cup of espresso brewed according to your personal preference thanks to our memo function, which allows you to adjust the coffee length and strength to suit your taste. Enjoy a superb coffee drink in your favourite cup at the touch of a button.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevent the coffee splashing or cooling down while being poured into your cup. This way your espresso is always served at the right temperature, while the machine is kept clean.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic clean.

5-step adjustable grinders

Different coffee blends require different levels of granularity for the full flavour to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full-bodied espresso, to the coarsest, for a lighter coffee.
