Grind your favorite coffee beans

- Play with the coffee's richness with our adjustable grinders

Easy to use

- Intuitive color coded user interface
- Ergonomic in day-by-day operations

Ease of cleaning and maintaining

- Always a clean machine thanks to automatic circuit cleaning
- Easy cleaning thanks to removable brewing group

Highlights

Compact and stylish

Compact and stylish the Syntia coffee machine is designed to delight both your palate and your eyes - the perfect fit for a modern kitchen.

Espresso and long coffee

Whether you want to enjoy an espresso or a long coffee - your favorites are accessible with a touch of a button

5 step adjustable grinders

Different coffee blends require different levels of granularity for the full flavor to unfold. The grind granularity of this espresso machine can

be adjusted in 5 settings, from the finest grind, for a full bodied espresso, to the coarsest, for a lighter coffee.

Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee.

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap ensuring maximum hygiene.

Color coded user interface

Easy and intuitive interactions thanks to the LED combined with buttons - this interface directly communicates the key operating messages.

Ergonomic day-by-day

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments of the full automatic coffee machine are directly accessible.
