- Tasty food in less time: no preheating required
- 4 Presets for most popular dishes
- Keep warm function for flexible serving time
- QuickControl dial with digital display

#### Thoughtfully designed

- Large 0.8-kg capacity
- Universal EasyClick handle — easily exchange accessories

# Highlights

## Crispy and tender results

Thanks to Philips TurboStar technology, all food is exposed to this constant, circulating heat and is cooked through simultaneously. The result is evenly fried food with no turning needed, even when food is piled up. In addition to the heated air flow, powerful direct heat from above quickly crisps the food for delicious, golden-brown results. Crispy on the outside, tender on the inside.

## QuickClean basket

With Philips' Airfryer QuickClean basket, which includes a removable non-stick mesh, cleaning becomes easier and faster. The removable non-stick coated drawer and the food basket are dishwasher safe for easy cleaning. Philips Airfryer with TurboStar technology saves you and your home from the smell of fried oil compared to a standard fryer.

## Inspiring recipes

The Philips Airfryer app is free and filled with delicious recipes and easy-to-follow step-by-step cooking instructions. Get inspired with quick, healthy snacks or meals for special occasions.

## Instant heat-up

The Philips Airfryer is ready to use immediately. Inherently faster from start to finish, it drives everyday usage with its superiority throughout the cooking process.

## Presets for most popular dishes

We created pre-set programs for popular dishes, so you can cook them with just one click. You'll enjoy the ease of our pre-set programs for frozen chips, meat, fish and drumsticks.

## Cooks fried food 50% more evenly

The unique TurboStar technology swirls hot air continuously through the whole cooking chamber, resulting in even heat distribution throughout the entire basket. "TurboStar achieves the most optimal airflow so food cooks 50% more evenly"

## More of your favourite dishes

Not just great for frying, the innovative Philips Airfryer with TurboStar technology also lets you grill, bake and even roast your favourite dishes for a one-stop solution for all of your meals.

## Small in size, big in capacity

Airfryer has been thoughtfully designed for your kitchen. It allows you to save space on your counter top while still enabling you to cook large amounts of food (800 g of chips).

## QuickControl dial

The new QuickControl dial is your main Airfryer control. Just turn it to set the right temperature, then click. Turn again to set the time — then click to start cooking.

## Healthier frying

The unique Philips TurboStar generates fast, superheated air to fry your food with little to no added oil. Philips Airfryer also creates less smell than conventional fryers, it is easy to clean, safe and economical for your daily use!
