Easy-to-use interface menus

Simple and easy-to-use interface menus

SuperPlay™

SuperPlay™ lets you start enjoying your music quickly without the hassle of first selecting playlists or individual tracks. You can listen to all the music under top-level music library categories, such as Artists or Albums, by simply highlighting the category and pressing the Play button. The jukebox plays all the music according to the category sort order. You can also combine SuperPlay™ with Shuffle and Repeat to further enhance your music enjoyment.

SuperScroll™ navigation

Double action search keys allow easy speed control when scrolling through large libraries. You can choose to move through your playlist one song at a time or just press and hold down a little harder to SuperScroll™ swiftly to your desired track.

1.5GB* capacity

1.5GB* capacity for music and data on the go

USB mass storage device

USB mass storage devices offer a convenient way to save, backup and move your files around. The devices connect to your computer using a USB connection and do not require any special software to be installed (only Windows 98 and Me need drivers). The device automatically shows up as a removable drive in Windows Explorer allowing you to simply drag and drop files to and from the device.
