PHILIPS

Highlights

Sunrise Simulation

Inspired by nature's sunrise, light gradually increases within 30 minutes until your room is filled with bright yellow light. This process of changing an increasing light stimulates your body to wake up naturally. By the time light has filled the room your chosen natural sound completes the wake up experience, leaving you ready for the day ahead.

Bedside Light

The sensitivity to light differs per person. In general, when using a higher light intensity a person needs less time to become fully awake. The 10 light intensities of the Wake-up light can be personalised and even set up to 200 lux.

Gentle Beep

At your set wake-up time, a gentle beep will play to complete the wake-up experience and ensure you are awake. The sound gradually increases in volume within one and a half minutes.

Snooze function

The sound stops when you tap the top of the product. After 9 minutes the sound will gently start playing again.

Developed by Philips

Philips was founded over 100 years ago as a company that produced and sold light bulbs. Over 100 years Philips grew into a global company that brings innovation in lots of different areas. To this day lighting still is the soul of Philips. The Wake-up Light is proud to

continue its heritage by building on years of knowledge and expertise of the world's most well-known lighting expert.

Proven by scientists

At this moment in time the Philips wake-up light is the only one scientifically proven to work. In order to make the Wake-up Light the best possible product it can be in genuinely waking you up naturally and energised we have done a lot of clinical research. This research was conducted by independent science facilities to study and prove the effects of the wake-up light on the overall wake-up experience. This way we have proven, among other things, that the Philips Wake-up Light not only wakes you more naturally, but also more energised and that it improves your mood in the morning.

Light: Yellow

The light of the sunrise simulation moves from Yellow to bright Yellow.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

Specifications

Easy to use

- Anti-slip rubber feet
- Snooze type: Tap top to snooze
- Display brightness control: 4 settings
- In-store demo function
- Number of alarm times: 1
- Charges iPhone/iPod Touch: No
- Snooze Duration: 9 minute(s)
- Controlled by iPhone App: No

Well-being by light

- Increase energy in morning
- Wake up gradually with light

Natural light

- Brightness settings: 10
- Light intensity: 200 Lux
- Sunrise simulating process: 30 minutes
- Colours in sunrise simulation: Bright Yellow
- Fall Asleep function: No

Sound

- Number of Wake-up Sounds: 1
- Music from smartphone/iPod: No
- FM Radio: No

Technical

- Box Dimensions (WxHxD): H200 x W200 x D130 mm
- Box Weight: 600 gram
- Cord Length EU/US: 150/180 CM
- Frequency: 50/60 Hz
- Insulation Device: Class III
- Insulation Power Plug: Class II (double isolation)
- Power Input: 7.5 W
- Power Output Adapter: 5.4 W
- Product Dimensions: H 180mm x W 180mm x D 115mm
- Product Weight: 290 grams
- Replaceable Lamp: No
- Type of Lamp: Liteon SMD Lamp LED
- Voltage: 100/240 V

Logistic data

- Country of origin: China
- CTV Code (EUR | US): 8843350001 | 884350060

Safety and Regulations

- Not for general illumination: Not for general illumination
- To wake up with light: To wake up with light
- UV-free: UV-free

Issue date 2018-03-28

Version: 9.2.1
