

Philips Wake-Up Light

Wake up with light, feeling more refreshed with a Wake-Up Light that wakes you up naturally

Inspired by nature's sunrise the Philips Wake-up Light uses a unique combination of light and sound to wake you in a more natural way. It helps you to feel more refreshed, so that it is easier get out of bed.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.
