

Philips Somneo, connected Sleep & Wake-Up Light

Personalize your sleep experience, wake refreshed

The connected Sleep & Wake-Up Light is designed to help you relax, sleep tight and wake up more pleasantly. Inspired by nature's sunrise the color of the light changes from soft dawn reds through warm orange to bright yellow. With light-guided breathing, personalized sun settings and bedroom environment tracking helping you to optimize your bedroom conditions for a restful sleep. The SleepMapper app will help you to personalize the settings and view data conveniently.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.
