Let's make things better.

PHILIPS

HP 4500

Aqua Wave

The Aqua Wave is a steam hairsetter which gives total styling versatility. Volume, waves or curls can be achieved in all sorts of hair quickly and easily. The rollers are placed in the steam outlet to absorb heat and moisture. The use of moist is gentle to the hair and gives long-lasting results.

The 12 rollers have a special layer which clings to the hair, so they can be positioned in the hair without using clips.

FEATURES

- 6 x 1 inch cling rollers : To create curls in short hair and waves in half long hair.
- 6 x 1 1/2 inch cling rollers : To create volume, large curls and deep waves in short and half long hair.
- Compact design : Roller storage is integrated.
- Fast : 5-10 second heat up of the individual rollers, quick and easy to use.
- Rubber pads : To prevent sliding off smooth surfaces.
- Cord storage : Underneath the appliance.
- Clip : To remove rollers from steam unit.
- Measuring cup : To fill the steam unit.
- Rocker switch : With integrated LED.
