# Highlights

## Epilate in shower or bath

Epilating in water makes hairs easier to remove. Gentle tweezing discs remove hairs from the root without pulling skin. The epilator can also be used in dry conditions.

## Cooling ice glove

Ice helps to close the pores and follicles after epilation and soothes skin. Using the cooling ice glove after epilating in the shower or bath helps leave skin smooth and radiant.

## Shaving head and comb

Use shaving head to remove hairs from sensitive hairs. Comb trims longer hairs pre-epilation and can also be used to shape bikini line.

## Root hair removal

Epilation removes hairs from the root. Hairs grow back finer and more slowly. Results last up to 4 weeks.

## Two speed settings

This epilator has two speed settings. Speed 1 for extra gentle epilation and speed 2 for extra efficient epilation

## Cordless & Rechargeable

Up to 30 minutes wirefree epilation, quick 1-hour recharge.

## Fully washable

Rinse the epilator under running water for optimal hygiene maintenance.
