# Highlights

## 3 flexible speed settings

This compact hair dryer offers you 3 pre-selected heat & speed combinations for an easy, quick and caring blow dry.

## Cold air setting

A cold air setting is a low heat setting that gently dries the hair to minimize damage. This function is suitable for all hair types, but especially for fine, dry or damaged hair. It is a perfect setting for the hot summer season!

## Concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in a more precise styling and quick drying.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

## 1100W

This 1100W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

## Compact design

Compact and ergonomic, this hairdryer benefits from a clever modern design. This results in a dryer that is light and easy to handle yet small enough to store virtually anywhere.
