PHILIPS

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.

2 Dry your hair

- Connect the plug to a power supply socket.
- For precise drying, attach the concentrator (○) to the hairdryer.
- To disconnect the attachment, pull it off the hairdryer.
- Adjust the temperature switch (○) to **I** for hot airflow, **I** for warm airflow, or **●** for cool airflow. Press the Cold Shot button (○) for cold airflow to fix your style.
- Adjust the airflow switch (○) to **II** for strong airflow and fast drying.
- Place it on a heat-resistant surface until it cools down.
- The appliance is equipped with ion function, which provides additional shine and reduces frizz.
- When the function is on, a special odor may smell: it is normal and caused by the ions which are generated.
- To turn the ion function on or off, adjust the ion slide switch (○) to **I** or **O**.
- If the function is on, the ion indicator (○) lights up.

After use:

- Switch off the appliance and unplug it.
- Place it on a heat-resistant surface until it cools down.
- Take the air inlet grille (○) off the appliance to remove hair and dust.
- Clean the appliance by damp cloth.
- Keep it in a safe and dry place, free of dust. You can also hang it with the hanging loop (○).
