Easy to use

- Foldable handle for easy portability
- Compact design for easy handling
- Easy storage hook for convenient storage

Highlights

Specially designed for Asians

Specially designed for Asians

1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

EHD+ technology

Advanced Philips EHD+ technology means that your dryer will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

100% more Ions

100% more Ions for ultimate shine

Coolshot

Coolshot for seal in shine and fix your style

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles
