- Adds volume, maximising thickness, curls and bouncy styles
- Perfect styling results with a slim styling nozzle

### Less Hair Damage

- ThermoProtect temperature setting

### Ease of use

- Paddle brush for straightening, smoothing or brushing
- Round ceramic brush for smooth hair

# Highlights

## Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

## Professional 2200W

This 2200W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

## ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

## Asymmetric volume diffuser

The volume diffuser has a unique asymmetric design that is contoured to the head, making it easier and more intuitive to use. The diffuser also spreads the flow of air across the hair,

drying hair more healthy, boosting volume and reducing frizz. For best results, hold close to the crown and root area and let the diffuser's fine textured pins encourage volume, add bounce and shape curls.

## Slim styling nozzle

Perfect styling results and a shiny, polished look with a slim styling nozzle for precise styling.

## Paddle brush

The Paddle Brush gives you silky smooth hair. Ideal for straightening, smoothing and everyday brushing. Helps reduce the drying time and creates natural straight and shiny looks.

## Round ceramic brush

Designed with ceramic barrel and bristles that hold heat for longer, perfect for smoothening down your hair.
