# Highlights

## Premium Design

This hairdryer embodies a modern, sophisticated approach to design. Soft, fluid contours and elongated proportions subtly communicate femininity while precision detailing and high quality materials and finishes are evidence of the product's superior performance.

## ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

## Professional 2200W

This 2200W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

## Ionic conditioning

Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition your hair, and smooth the hair cuticles to intensify hair's shine and glossiness. The result is smooth and frizz-free hair with beautiful shine.

## Speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

## Ultra slim styling 11mm nozzle

The ultra thin styling nozzle concentrates the flow of hair through the 11mm nozzle for precision styling on specific areas. Great for touch ups or to set your style.

## Turbo boost

The turbo boost button increases the airflow, to dry your hair even quicker.

## Asymmetric massaging diffuser

The asymmetric massaging diffuser has a unique asymmetric design that is contoured to the head, making it easier and more intuitive to use. The diffuser spreads the flow of air across the hair, drying hair more healthy, boosting volume and reducing frizz while the addition of massage helps stimulate the scalp and improve hair vitality. For best results, hold close to the crown and root area and let the diffuser's massaging textured pins encourage volume, add bounce and shape curls.

## Cool Shot

A must-have professional function for hair stylers. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

## 1.8 m cord

Convenient to use thanks to the 1.8m power cord length.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

## Removeable air inlet filter

The removeable air flow filter of your hairdryer is easy to maintain. Simply click off to clean. Doing this regularly will prevent build up of dust and hair that can affect drying performance.
