- Ergonomic handle for ease of use
- Easy storage hook for convenient storage
- Included: Brush for smooth hair
- 2.5m cord

Highlights

Professional 2300W

Professional 2300W for great styling results

Ion conditioning

Ion conditioning for shiny, frizz free hair

6 flexible settings

6 flexible speed and temperature settings

Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

2.5m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.

Narrow concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a style.
