Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.

PHILIPS

- Do not use the appliance for any other purpose than described in this manual.
- When the appliance is connected to the power, never leave it unattended.
- Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.
- Do not wind the mains cord round the appliance.
- Wait until the appliance has cooled down before you store it.
- Pay full attention when using the appliance since it could be extremely hot. Only hold the handle as other parts are hot and avoid contact with the skin.
- Always place the appliance with the stand on a heat-resistant, stable flat surface. The hot heating plates should never touch the surface or other flammable material.
- Avoid the mains cord from coming into contact with the hot parts of the appliance.
- Keep the appliance away from flammable objects and material when it is switched on.
- Never cover the appliance with anything (e.g. a towel or clothing) when it is hot.
- Only use the appliance on dry hair. Do not operate the appliance with wet hands.
- Keep the heating plates clean and free of dust and styling products such as mousse, spray and gel. Never use the

- appliance in combination with styling products.
- The heating plates has coating. This coating might slowly wear away over time. However, this does not affect the performance of the appliance.
- If the appliance is used on color-treated hair, the heating plates may be stained. Before using it on artificial hair, always consult their distributor.
- Always return the appliance to a service centre authorized by Philips for examination or repair. Repair by unqualified people could result in an extremely hazardous situation for the user.
- Do not insert metal objects into openings to avoid electric shock.

Electromagnetic fields (EMF)

This Philips appliance complies with all applicable standards and regulations regarding exposure to electromagnetic fields.

Environment

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in an official collection point for recycling. By doing this, you help to preserve the environment.

2 Straighten your hair

- 1 Connect the plug to a power supply socket.
- 2 Slide the on/off switch (1) to I to switch on the appliance.
 - ↳ The power-on indicator (2) lights up.
 - ↳ After 30 seconds, the appliance heats up.
- 3 Slide the closing lock (3) to unlock the appliance.
- 4 Comb your hair and take a section that is not wider than 5cm for straightening.
- 5 Place it between the straightening plates (4) and press the handles together.
- 6 Slide the straightener down the length of the hair in a single motion (max. 5 seconds) from root to end, without stopping to prevent overheating.
 - To create flicks, turn the straightener half-circle inwards (or outwards) when it reaches the hair ends. Hold the straightener in that position for 2 to 3 seconds, and then release it.
- 7 After 20 seconds, repeat step 6 until you achieve the desired look.
- 8 To straighten the rest of your hair, repeat steps 4 to 7.
