# Highlights

## Soft touch coating

Soft touch barrel coating secures safe styling with no risk of instant burns. 96% of women say that "Soft touch coating ensures safe styling without risk of instant burns". Test conducted with 55 women.

## Curl Ready Indicator

Unique Curl Ready Indicator lets you know when your curl is ready by giving a "beep" signal. This innovative feature helps you get beautiful curls and waves and prevent hair overheating. Just choose one of three curling times depending on your hair type and press the button after having wrapped the hair around the barrel.

## Digital temperature settings

Integrated LCD-display with hair type indication allow you to choose the appropriate curling time for your hair type and prevent overheating.

## Conical barrel

Conical barrel 13-25mm guarantees natural looking curls and waves.

## Ready to use indicator

Temperature symbol stop blinking when the curler is heated up and ready to use.
