- Unique combination for perfect end result
- 2 cutting and slicing speeds
- Pasta insert, steaming basket and tray for different recipes
- 5 different discs that slice, shred and cut julienne

Quick and easy cleaning

- Dishwasher safe parts for easy cleaning

Highlights

Handsfree Cooking System

The unique combination of automatic stirring, perfect temperature and the QuickSet timer gives you all you need for cooking meals from scratch, even on your busiest day.

AutoStir technology

Gentle, constant stirring thanks to AutoStir technology not only ensures that your ingredients brown evenly - the flavor of your ingredients also gets released making your dishes tasty.

Perfect Temp Technology

The appliance is perfect for a wide variety of dishes, from breakfast to dinner. You can melt, simmer, boil, steam and fry. So you can prepare delicious slow cooked dishes like stews, nice meat curries and your own fresh and healthy pasta sauce your children will love. Also homemade soup, fried potatoes or a perfectly cooked risotto and paella are easy to prepare. You can select the exact temperature thanks to the Perfect Temp technology (between 40-250 C), set the timer on the

control panel and turn on the stirring attachment and the HomeCooker will do all the hard work for you.

QuickSet timer

With the QuickSet timer you can set the exact time easily. The timer can count down and can count up in seconds, up to 99 minutes. When the time is done, the HomeCooker will give you several times a beep signal.

Accessories for your variety

Together with the HomeCooker you will get the extra accessories; pasta insert, steaming basket and tray. These accessories will give you even more variety in your cooking so you can make a lot of different recipes.

Jamie Oliver recipebook

Jamie Oliver wrote delicious recipes especially for the HomeCooker recipebook, which is full of variety and inspiration. Try out these tasty and delicious recipes yourself! Find even more Jamie Oliver HomeCooker recipes online via www.philips.com/homecooker.

Automatic shut down

When the time you set is done, the HomeCooker will automatically shut down. The temperature will go down and helps to prevent your food from burning and overcooking.

5-in-1 DirectCut technology

With the Cutting tower you can cut and slice directly in the pan. It comes with 5 different cutting blades that enable 2 sizes of slicing (thick and thin), 2 sizes of shredding (medium and coarse) and cutting julienne. Also can be used as a stand alone saladmaker.

2 cutting and slicing speeds

You can choose which speed you need for your cutting, depending on the dish or recipe you are making. For cutting julienne use speed 1 and for slicing and grating use speed 1 for soft ingredients like mushrooms and speed 2 for hard ingredients like carrots and salami.
