## Make 2.5 L in one go

Thanks to the innovative juice extraction system with the upside down sieve, this juicer extracts up to 10% more juice\*. And depending on the type of fruit or vegetables one juices, it is possible to make up to 2.5 liters of juice in one go without the need to empty the pulp container.

## XXL feeding tube

The 80 mm extra large feeding tube allows you to juice even large fruits and vegetables like apples, carrots and beetroots without pre-cutting.

## Juice the toughest ingredients

## Drip stop

Always keep your kitchen counter clean even when you are done juicing. The drip stop prevents any juice from dripping on the table.

## QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning can now be done within 1 minute, thanks to the integrated pulp container and smooth surfaces.

## Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means there is no need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

## QuickClean sieve

A lot of pulp fibres usually get stuck in the sieve, which makes it very difficult to clean. Thanks to the innovative QuickClean technology all surfaces of the sieve are smooth, which helps you wipe away the fibres with a standard kitchen sponge.

## Smooth and easy to clean

The juicer is designed with round shapes and smooth surfaces to facilitate easy rinsing under the tap.

## Recipe booklet

You can use the recipe booklet full of inspiring ideas for your daily juicing.
