# Highlights

## Vacuum technology

Vacuum technology sucks the oxygen out of the jar before blending. Results are visible in the final blend: fewer bubbles, less foam, less juice separation. The smoothie stays fresh for longer.

## Program setting

Choose from 3 programs: vacuum smoothie, pulse and ice crushing. Make any smoothie you like.

## Strong Tritan jar

The Tritan jar is made from copolyester and is lighter than a glass jar. It does not smell or stain. The ideal environment for your favourite smoothie.

## Choose your blending speed

From gentle blending for soft fruits, to a burst of power for harder fruit and vegetables—it's up to you with our variable manual speed options.

## More power for smoother blends

Finer blending of fruit and vegetables, thanks to our 1400 W motor.

## Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended—so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

## Up to 35,000 RPM

35,000 RPM for excellent blending and even healthier smoothies

## Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe—except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

## Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. The blades cannot be cleaned in the dishwasher, to preserve their sharpness.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

# Specifications

## Accessories

**Included:** Jar, Measuring cup, Recipe booklet, Ice crush knife

## Country of origin

Made in: China

## General specifications

**Number of speed settings:** Variable

**Prefix programs:** 4

**Product features:** Automatic shut-off, Cord storage, Dishwasher safe, Non-slip feet, On/off switch, Pulse, Variable speed,

Removable lid

**Vacuum Smoothies button**

**Key Feature:** ProBlend 6 3D

## Service

2-year worldwide guarantee

## Sustainability

**Packaging:** > 90% recycled materials

**User manual:** 100% recycled paper

## Technical specifications

**Capacity jar:** 2.2 l

**Working capacity jar:** 1.8 l

**Power:** 1400 W

**RPM blender (max):** 35000 rpm

**Cord length:** 1 m

## Design

**Colour:** Metallic

## Finishing

**Material blade:** Stainless Steel

**Material jar:** Tritan

**Material of main body:** SS
