

Philips SoundBar
Micro Hi-Fi System

SoundBar

HSB3280

Bring your gaming experience to life

with wireless subwoofer

The Philips SoundBar HSB3280 gives you powerful audio effects that your flat TV cannot deliver. The 1-piece integrated system with a wireless subwoofer requires no additional speakers or unruly wires for a truly immersive gaming experience.

Enrich your AV entertainment experience

- Surround sound for different game genres
- USB Direct for easy MP3 music playback
- Front and rear AV input for easy hookup to game consoles

Superb performance in a compact design

- Digital wireless subwoofer for powerful bass
- Dolby Virtual Speaker for theater audio experience
- 300W RMS total output power
- Smartpower system syncs power status of TV and AV devices

Design that blends into your interior

- Desktop and wall mountable options for great convenience
- Single remote control for soundbar, TV and other AV devices

PHILIPS
sense and simplicity

- Set dimensions (W x H x D): 800 x 91 x 95 mm
- Set dimensions with stand (W x H x D): 800 x 100 x 100 mm
- Subwoofer dimensions (W x H x D): 170 x 378 x 302 mm
- Packaging dimensions (W x H x D): 397 x 375 x 354 mm

Highlights

Digital wireless subwoofer

The digital wireless subwoofer is optimized to reproduce bass frequencies. The result is a powerful reproduction of deep bass with the minimum of distortion.

Dolby Virtual Speaker

Dolby Virtual Speaker is a sophisticated audio virtualization technology that produces rich and immersive surround sound from a two-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. DVD playback is enhanced by expanding the 2-channel environment. When combined with Dolby Pro Logic II processing, any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.
