- Superior bristle design

Designed around you

- EasyStart

Highlights

Sonic technology

Drives fluid between the teeth and along the gumline for a powerful yet gentle clean.

Superior bristle design

Philips Sonicare ProResults brush heads use contoured and angled bristles to follow the shape of teeth and maintain surface contact,

maximizing patients' ability to remove plaque in places they might normally miss with a manual toothbrush. With color-fading reminder bristles to indicate effectiveness, patients will always know when it's time for a new brush head.

EasyStart

Gently increases power over the first 14 uses to ease patients into the Sonicare brushing experience.
