Designed around you

- EasyStart

Guides you to follow dental recommendations

- Quadpacer
- Smartimer

Provides a superior clean

- Safe on orthodontics, dental work and veneers
- Angled brush head neck for better reach to back teeth
- Engineered to maximize sonic motion

Highlights

Naturally whiter teeth

The dynamic cleaning action of this toothbrush and the direct broader contact with each tooth, has proven to remove everyday stains, to help keep teeth naturally whiter.

Safe and gentle

The gentle motion of this Philips Sonicare power toothbrush is safe for dental work, including orthodontics, implants and veneers, so you can brush without worry.

Clean and White Mode

2 minutes of Clean mode with an additional 30 seconds of White mode to focus on the visible front teeth. Removes everyday stains, such as coffee, tea, tobacco and red wine. Whitens teeth up to 2 shades in just 2 weeks with Standard ProResults brush heads.

Sonic technology

Philips Sonicare brush heads are vital to our core technology of high-frequency, high-amplitude brush movements performing over 31,000 brush strokes per minute. This dynamic cleaning action drives fluid deep between teeth and along the gumline, for a thorough yet gentle cleaning.

Angled brush head neck

The uniquely angled brush head neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Quadpacer

Thirty-second interval timer encourages thorough brushing of each quadrant of the mouth.

Smartimer

Two-minute timer helps ensure dental professional recommended brushing time.

EasyStart

Gently increases power over the first 14 uses to ease patients into the Sonicare brushing experience.
