Highlights

Gentle daily whitening

Naturally whiten teeth with our unique sonic technology. 31,000 brush strokes per minute help remove everyday stains from food and drink so you can gently brighten your smile each time you brush.

Up to 2 x whiter teeth

Click on our DiamondClean brush head to gently yet effectively remove surface stains. Densely packed central stain removal bristles work hard to make your smile naturally whiter by removing up to 100% more stains.*

Quadpacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our Quadpacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque-fighting bubbles, and drive them deep between your teeth and along your gumline. At the same time, your teeth will experience 62,000 gentle but effective brush movements. You'll get a month's worth of manual brushing in just 2 minutes.

Deep, gentle gum cleaning

Click on our AdaptiveClean brush head for a deep, gentle clean that removes up to 10x more plaque and leaves gums up to 2x healthier in 2 weeks than a manual toothbrush. Soft rubber sides flex along every contour of your teeth and gums to absorb any excess.

Brush with confidence

Whatever your needs, you can be sure of a safe brushing experience with the FlexCare toothbrush. Our sonic technology is suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.

4 modes

Tailor your gum care with FlexCare. Boost your clean with 4 modes including Clean – for an outstanding all-round clean, Gum Care – to stimulate gums and improve gum health, White – to remove surface stains and Sensitive – for gentle yet thorough gum cleaning.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start programme gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush. Together they help you reach your recommended brushing time, every time.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
