Features

Triple clean

Up to 80% of bad breath comes from odor-producing bacteria that accumulate and hide deep within the porous surface of your tongue. TongueCare+ combines three powerful components that work together to form an advanced fresh breath solution. The innovative tongue brush, with 240 MicroBristles, contours to the tongue to clean away bad breath bacteria below the surface. Specially formulated BreathRx tongue spray kills 99% of the germs that cause bad breath* and neutralizes lingering odors. Sonicare sonic technology breaks up and cleans away debris with 31,000 strokes per minute.

Click-on tongue brush

With 240 rubber MicroBristles, the TongueCare+ tongue brush is specifically designed to clean the soft and porous surface of your tongue. The flexible MicroBristles contour to and gently clean around the ridges and grooves, to remove bacteria build-up and drive our bacteria-killing BreathRx tongue spray deeper. The compact shape allows you to comfortably clean the entire tongue.
