Tough on plaque. Extra gentle on gums.

Exceptional plaque removal for better gum health

The Philips Sonicare G2 Optimal Gum Care toothbrush head (formerly ProResults gum health) is perfect for those who want a gentle yet optimal plaque removal experience. The outer bristles gently remove plaque from the gumline.

For exceptional gum care

- Protects gum health

Innovative technology

- Prompts brush handle to select optimal mode**
- Works with any Philips Sonicare click-on toothbrush
- Engineered to maximize our unique sonic cleaning power
- Rigorously tested to meet patients' oral health needs

Designed to optimize performance

- Ensure effective gum care, plaque removal and whitening

Highlights

Maintains gum health

Densely-packed, high-quality bristles give you an extra gentle brushing to remove plaque along the gumline to protect gum health more than a manual toothbrush. And, the specially curved power tip makes reaching the teeth at the back of your mouth a breeze.

Brush head replacement cues

After three months of use, brush heads exhibit fatigue and become less effective. BrushSync™ reminds patients before their brushes lose efficiency. Each smart Philips Sonicare power toothbrush tracks how often patients brush and how much pressure they apply, then notifies them when it's time for a replacement brush head. For patients who don't use a smart toothbrush, blue reminder bristles fade to white, indicating it's time for a new brush head.

BrushSync™ mode-pairing

Give your patients a superior clean with our BrushSync™ mode-pairing feature.** The Optimal Gum Care brush head syncs with any BrushSync™ enabled Philips Sonicare toothbrush handle.** The best brushing mode and intensity level for exceptional gum care are automatically selected.

Easy to click-on

Optimal Gum Care simply clicks on to a Philips Sonicare toothbrush handle for a secure fit and easy maintenance and cleaning. Premium Gum Care fits all Philips Sonicare toothbrush handles except PowerUp Battery and Essence.

Safe on teeth and gums

All genuine Philips Sonicare brush heads are proven safe and gentle on teeth and gums. Our products are strictly tested to ensure patients get exceptional performance and durability each time they brush.

Philips Sonicare technology

Philips Sonicare brush heads are vital to our core technology of high-frequency, high-amplitude brush movements performing over 31,000 brush strokes per minute. This dynamic cleaning action drives fluid deep between teeth and along the gumline, for a thorough yet gentle cleaning.
