Deepest clean

HX9042/23

## Contours to teeth and gums for our deepest clean

### Innovative new design with flexible sides

Philips Sonicare AdaptiveClean brush heads are for patients who desire the ultimate cleaning but don't have the right brushing technique. The only power toothbrush head with soft, flexible sides made of rubber.

#### **Provides a superior clean**

- Brush head design

#### **Designed around you**

- Reminder bristles
- Works with any Philips Sonicare click-on toothbrush

# Highlights

## Brush head design

Features flexible sides, which allow the bristles to conform to the unique shape of patients' teeth and gums while absorbing excessive pressure. The flexible sides also enable an enhanced sweeping motion for superior cleaning along the gumline and in hard-to-reach areas vs. a manual toothbrush.

## Reminder bristles

At first glance it may not be obvious, but brush heads lose stiffness and gradually wear down over months of normal use. Our blue reminder

bristles fade to white and help patients recognize when it's time for a replacement. For optimal results, replace brush heads every three months.

## Click-on design

Philips Sonicare brush heads click on and off the brush handle for a secure fit and easy maintenance and cleaning. Fits all Philips Sonicare toothbrush handles except: PowerUp and Essence.
