- Automatically selects optimal mode for ultimate results***
- Philips Sonicare's advanced sonic technology

Designed to optimise performance

- Always know when to replace. Always get an effective clean.
- Click-on design for simple brush head placement
- Tested to meet your oral health needs

Highlights

Say goodbye to plaque

The Philips Sonicare Premium plaque defence toothbrush head gives you our deepest clean. Thanks to its flexible sides and unique bristle pattern design, it removes up to 10 x more plaque, even in hard-to-reach areas*, for a truly deep clean along the gumline and between teeth.

Adaptive cleaning technology

You get a personalised clean every time you brush with our adaptive cleaning technology. Soft rubber sides flex to let C3 Premium Plaque Defence adapt to the shape of your teeth and gums, absorbing any excess brushing pressure and enhancing our sonic cleaning power. Bristles can then adjust to the shape of your teeth and gums so you get up to 4 x more surface contact than a regular brush head** for deeper cleaning in hard-to-reach areas.

BrushSync™ mode-pairing

You'll always get the best possible clean with our BrushSync™ mode-pairing feature*. The Philips Sonicare C3 Premium Plaque Defence

brush head syncs with your BrushSync™ enabled Philips Sonicare toothbrush handle****, selecting the optimal brushing mode and intensity level for exceptional cleaning. All you need to do is start brushing.

Philips Sonicare technology

Our toothbrush heads are designed to perfectly sync with Philips Sonicare technology. High-speed vibrations give up to 31,000 brush strokes per minute for outstanding results. This starts in the handle of every Philips Sonicare toothbrush. It powers every brush stroke to whip up your toothpaste into plaque-fighting bubbles, driving them deep between your teeth and along the gumline for gentle yet effective cleaning.

Brush head replacement cues

Toothbrush heads become less effective after 3 months of use, but we'll remind you before this happens. Your smart toothbrush tracks how often and how hard you brush, and will notify you when it's time for a replacement. Don't have a smart Philips Sonicare toothbrush? No problem — just monitor your blue replacement bristles, and when they turn white you'll know it's time.

Easy to click on

Your C3 Premium Plaque Defence brush head fits perfectly with any Philips Sonicare toothbrush handle, except PowerUp Battery and Essence. Simply click on and off for easy replacement and cleaning.

Brushing with peace of mind

All genuine Philips Sonicare toothbrush heads are safe and gentle on teeth and gums. During tests, our brush heads are put through their paces to ensure you get exceptional performance and durability each time you brush.
