## Our best stain-removing brush head

### Removes up to 5x more stains in just three days\*

Our W3 Premium White brush head is designed to help bring back the brightness of your patients' smiles. Polishing bristles remove extrinsic stains to visibly whiten teeth in just three days\*, while patients get an exceptional deep clean.

#### For exceptionally whiter teeth

- Removes up to 5x more extrinsic stains in just three days\*

#### An unrivaled deep clean

- Up to 4x more surface contact\*\* for an effortless deep clean
- Up to 10x more plaque removal\*\*\*

#### Innovative technology

- Handle automatically selects optimal mode and intensity\*\*\*\*
- Philips Sonicare's advanced sonic technology

#### Designed to optimize performance

- For the most effective cleaning, every day
- Works with any Philips Sonicare click-on toothbrush
- Rigorously tested to meet patients' oral health needs

# Highlights

## Adaptive cleaning technology

Patients get a personalized clean every time they brush with our adaptive cleaning technology. Soft, flexible rubber sides let Premium White adapt to the unique contours of the mouth. Our bristles adjust to gums and teeth, giving patients up to 4x more surface contact than a DiamondClean brush head for deeper cleaning, even in hard-to-reach spots. Adaptive cleaning technology also: allows gentle tracking along the gumline; absorbs excessive brushing pressure; and enables an enhanced sweeping motion, for a unique in-mouth feel and superior cleaning.

## Helps whiten teeth, fast

Dense bristles packed into the center of the Premium White brush head work to remove both plaque and extrinsic stains caused by food and drinks. Its flexing sides let the bristles contour to the unique shape of teeth and gums for deep cleaning and a whiter smile in just three days.

## Sonicare's best plaque removal

Premium White provides patients exceptional cleaning as well as daily whitening. With its flexible sides and unique bristle pattern design, Premium White is proven to remove up to 10x more plaque\*\*\* from teeth and along the gumline for a truly deep clean.

## BrushSync mode pairing

Patients will always get their best possible clean with our BrushSync mode pairing feature. A microchip in the Premium White brush head syncs with the connected Philips Sonicare toothbrush handle. It prompts the handle to automatically select the optimal brushing mode and intensity level for exceptional stain removal. All your patients need to do is start brushing.

## Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

## Smart brush head replacement

Brush heads exhibit fatigue and bristle wear after three months of normal use. Philips Sonicare smart toothbrushes provide accurate brush head replacement reminders based on how often patients brush and how much pressure they use. For those who don't use a smart toothbrush, Premium White's blue reminder bristles fade to white to let patients know it's time for a replacement brush head.

## Easy to click-on

Premium White simply clicks on to a Philips Sonicare toothbrush handle for a secure fit and easy maintenance and cleaning. Premium White fits all Philips Sonicare toothbrush handles except PowerUp Battery and Essence.

## Safe on teeth and gums

All genuine Philips Sonicare brush heads are proven safe and gentle on teeth and gums. Our products are strictly tested to ensure patients get exceptional performance and durability each time they brush.
