Reveal their habits for improved brushing routines

Real-time feedback and personalised coaching

Brushing data is sent to the Sonicare app, giving patients real-time feedback and personalised coaching

Track your brushing with real-time guidance

- Powered by Smart Sensor Technology
- State-of-the-art 3D mouth-map
- Personalised guidance with Touch-Up feature
- Brush head monitor
- Goal-setting and progress reports

Provides a superior clean

- AdaptiveClean brush head
- BrushPacer and Smartimer for thorough brushing
- Customisable modes and intensities
- Extended battery life and convenient travel case
- InterCare brush head

Highlights

Smart Sensor Technology

Three smart sensors send personalised brushing data to the Philips Sonicare app. Location sensor shows patients where they're brushing too little for better coverage. Scrubbing sensor helps guide patients to reduce scrubbing for optimised technique and a deeper, gentler clean. Pressure sensor tracks brushing pressure and causes the handle to pulsate gently to tell patients when to adopt a softer touch.

State-of-the-art 3D mouth-map

A personalised 3D mouth-map provides post-brushing analysis so patients can track and refine their routines and identify trouble spots that require extra attention.

Touch-Up

The Touch-Up feature displays customised guidance based on actual brushing data in order to immediately address missed areas.

Brush head monitor

Using actual brushing time and pressure, the brush head monitor alerts patients in three months or less when it's time to replace their brush heads, ensuring continued effectiveness for the best results possible.

Goal-setting

The Philips Sonicare app maintains a running history of patients' personalised brushing data, allowing them to easily review performance and set daily and long-term goals. After 30 days, patients can generate an in-app progress report summarising their brushing performance, with the added option of sharing progress reports with their dental professional via email.

BrushPacer and Smartimer

The BrushPacer tracks brushing through six segments of the mouth for a complete clean, while the Smartimer ensures that patients brush for the full two minutes as recommended by dental professionals.

AdaptiveClean brush head

Soft, flexible sides made of rubber allow the bristles to conform to the unique shape of patients' teeth and gums to provide up to 4 x more surface contact*. The brush head's flexibility helps the bristles gently track along the gumline and absorb excessive brushing pressure. Enhanced sweeping motion delivers a unique in-mouth feel and superior cleaning along the gumline and in hard-to-reach areas*. Proven to remove 10 x more plaque than a manual toothbrush in hard-to-reach areas*.

InterCare brush head

Extra-long, high-density bristles reach deeper between teeth to help remove significantly more plaque* interproximally. Ideal for patients with bleeding gums or increased risk of gum inflammation.

Customisable modes

With three modes—Clean, White and Deep Clean—and three intensity settings, Philips Sonicare FlexCare Platinum Connected provides a customised experience for optimal comfort.

Specifications

Modes

Clean: For exceptional everyday cleaning

White: Removes surface stains

Deep Clean: For an invigorating deep clean

3 intensities: Low, Medium, High

Items included

Handles: 1 FlexCare Platinum Connected

Brush heads: 1 AdaptiveClean

Charger: 1

Travel case: 1

UV sanitiser: 1

Connectivity

Bluetooth® wireless technology: Connected brushing app

Compatibility

Android compatibility: Android phones, Bluetooth 4.0-enabled tablets

iOS compatibility: iPad 3rd Gen or higher, iPhone 4S or higher, with iOS 7 operating system

Design and finishing

Colour: White

Cleaning performance

Speed: Up to 62,000 brush movements/min

Performance: Remove up to 10 x more plaque**

Health benefits: Improves gum health in only two weeks

Whitening benefits: Helps naturally remove stains

Timer: BrushPacer and Smartimer

Pressure sensor: Vibrates handle to alert user

Ease of use

Brush head system: Easy click-on brush heads

Brushing time: Up to 2 weeks

Battery indicator: Light shows battery status

Handle: Slim ergonomic design

Display: Illuminated display

Technical specifications

Battery: Rechargeable

Battery type: Lithium ION

Operating time (full to empty): Up to 2 weeks

Power

Voltage: 110-220 V

Service

Warranty: 2-year limited warranty
