Easy does it

With an electric toothbrush, you let the brush do the work. We’ve built a scrubbing sensor into your handle as a gentle reminder to reduce scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

Focus areas and goal-setting

Any trouble areas your dentist has pointed out? We’ll highlight them on your in-app 3D mouth map, and remind you to pay extra attention to these areas.

Never miss a spot

The Philips Sonicare app lets you know when you’ve achieved a thorough clean, and coaches you to be a better, more mindful brusher.

BrushSync mode pairing

Wondering which mode and intensity you should use? Wonder no longer. A microchip in your brush head tells your DiamondClean Smart which one you’re using. So if you click on a gum-care brush head, for example, your toothbrush knows to select the optimal mode and intensity to provide a gentle yet effective care for your gums. All you need to do is to press the power button.
