

Philips  
Micro Hi-Fi System

MC-320

## Sophisticated Style and Great Sound

Distinctive, elegant design and solid sound technology make this a high performing personal audio system.

### **Enrich your sound experience**

- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimized music style settings
- Incredible Surround™ for enhanced audio enjoyment
- 800W PMPO/40W RMS total power

### **Start the day your way**

- Wake up and sleep timer functions
- Full logic tape deck with Auto Reverse
- Digital tuning with 40 preset stations for extra convenience

### **Watch your disc spin**

- Front loading CD with viewing window

# PHILIPS

# Specifications

## Sound

- Output Power: 800 watts PMPO
- Sound Enhancement: Incredible Surround, Digital Sound Control 4 modes, Dynamic Bass Boost

## Loudspeakers

- Main Speaker: 2 way, Bass Reflex Speaker System, 4" woofer, Speaker grilles detachable

## Audio Playback

- Playback Media: CD, CD-R, CD-RW
- Disc Playback Modes: Repeat/one/all/program, Shuffle Play, 40-Track Programmable
- Loader Type: Front
- Cassette Deck Technology: Full Logical
- Cassette Playback Modes: Tape Counter, Autoreverse

## Audio Recording

- Recording Media: Tape
- Tape Recording Enhancement: Automatic Recording Level, CD Synchro Start Recording, Timer for recording from tuner

## Tuner/Reception/Transmission

- Auto digital tuning

- Station presets: 40
- Tuner Bands: FM Stereo, MW
- Tuner Enhancements: Auto Store

## Connectivity

- Aux in: Line in
- Headphone: 3.5 mm
- Other connections: FM Antenna, MW Antenna

## Convenience

- Alarms: CD Alarm, Radio Alarm, Tape alarm, Sleep timer
- Clock: On main display
- Display Type: LCD

## Accessories

- Included accessories: FM/MW Antenna
- Remote control: 23-key with battery

## Dimensions

- Set dimensions (W x H x D): 166 x 225 x 274 mm
- Main speaker dimensions (W x H x D): 166 x 225 x 244 mm
- Packaging dimensions (W x H x D): 414 x 303 x 539 mm
- Weight incl. Packaging: 10.2 kg

# Highlights

## Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

## Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

## Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

## 800W PMPO / 40W RMS

This system has 800W PMPO / 40W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

## Wake up and sleep timer

Many of alarm clocks feature a variety of alarm choices. This Philips Clock radio awakens you to radio or the traditional alarm buzzer. The Sleep Timer allows you to program the required length of time for music to coincide with how long you normally take to fall asleep. No matter what your alarm clock needs, whether it's a morning buzzer that produces a steady tone, or listening to your favorite music as you go to sleep, this clock radio has it all.

## Full logic tape deck

Full logic tape deck with Auto Reverse

## 40-preset digital tuning

Digital radio offers you additional music options to your music collection on your Philips audio system. Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.
