### Online Music Channels

Whatever your taste in music, you'll discover a dedicated online channels, updated every day and ready to immerse you in a refreshing stream of the very best sounds from your preferred musical genre. Unlike conventional radio, you retain control over what you hear. You can often skip to the next track and also see what the artist of the next track is.

### Personalized Internet Radio

Through your internet connection, you can view a vast catalogue of artists, music styles and musical eras. By picking out your favorites, you can create a personalized station that will playback music of those and similar taste artists. Every time you tune in, the station will play the songs you love by the artists you prefer... and add a dash of extra interest by matching up your tastes and selections with similar new styles and sounds to intrigue and entice you.

### INFO! Service

Has a song on the radio every piqued your interest, but you missed or forgot the artist's name? Frustrated? With the MCI250's INFO! service you can simply press the INFO! button on the set and you'll receive an email containing information about the artist and the track. You can also link to retailers to buy the music. And if you're already drowning in emails, don't worry... Set your email preferences using My.Philips.com and the site will store your INFO! choices 'till you choose to review them online at your leisure.

### PC Link

If you've already got a range of digital music files stored on your PC, there's no need to waste or repeat all that work! Your MCI250 becomes part of your home network, connected to both the internet and your PC via the gateway router. By pressing the PC Link button on the set, you have instant access to the music files stored on your hard drive. And, even better, you get to play them through the MCI250's crisp, clear, powerful, patented wOOx speakers!

### Upgradeable

Keep your MCI250 up to date. Simply use your Internet connection to download and install software updates for exciting new services and product features.
