Software history

The latest software improves the below:
NOTE: Each release contains all solutions identified in the earlier version.

System Software Version: D8.06S

- Increased playback coverage. Improved playability for a number of Internet radio stations (e.g. Virgin radio, BFM, Europe 1, ...)

System Software Version: D8.05S

- Enhanced the playability of Internet radio stations (e.g. WDR, MDR, NDR, FFH, RNE, …)
- Improve the FLAC file playability

System Software Version: 7.56S

- Listen to over 15 million songs on your device.
  This software update brings you the music service from Spotify. With Spotify, you now have access to unlimited music and make it easy to discover music on MCi8080.

  After your MCi8080 has been upgraded to this software, and if you are already a Spotify Premium account user, simply go to Online Music Service in the menu item, select Spotify and enter your Spotify Premium account information. Once logged in, you can enjoy millions of tracks at any time you like.
  Spotify music service is currently available in Sweden, Norway, Finland, the UK, the US, France, Spain and the Netherlands. If you are not yet a registered Spotify Premium account user and would like to learn about Premium account registration information, please visit http://www.spotify.com to find out more information.

System Software Version: 2.58S

- The device now is enabled to support MyRemote App. Philips MyRemote lets you use your iPhone/iPad/iPod Touch, and Android smartphone as a remote to control your MCi8080 network music player. To obtain MyRemote, please search "MyRemote" to locate the App at Apple App Store or Android Market. MyRemote automatically detects any Philips Streamium audio system on the same Wi- Fi network, providing you with full, instant control over it from anywhere in your home.

Key features of MyRemote App

- Access all sources of music available on your Philips products, including hard drives, computers, Internet radio, FM radio, CD/DVD and USB storage devices.
- Use Multiroom Music mode to play different music in different rooms or enjoy the same music in every room.
- Browse your music by playlists, artist, album, genre, folders, or search mode.
- Get full playback control, including power on/off, play, pause, next/previous, and volume.
- View album artwork and song information during playback.
- Configure commonly used settings, such as sound and time/alarm.

About MyRemote App

Control your connected Philips Smart LED TV, Blu-ray player, Home theater and Streamium products with one single app. The Philips MyRemote offers a wide variety of control buttons to replace the by-packed remote control. Simply connect all your Philips products to the same network and select the device you want to control. Additional features like easy text entry and pushing pictures to your TV really turns your iPhone, iPod touch and iPad into an easy to use remote control.

- iPhone/iPod docking device DCK3060 compatibility improvement; now support iOS 4.3.2.

System Software Version: D2.37S

- Display graphics improvement.

System Software Version: D2.34S

- Initial Release.
