Let's make things better.

PHILIPS

Sound Enhancement

2 x 10 Watts RMS Stereo

10 watts continuous RMS power output per channel, at 8 ohms, from 120Hz to 15kHz, with no more than 10% Total Harmonic Distortion (THD).

Incredible Surround™

An exciting, new, psycho-acoustic method of widening the stereo spatial image especially suited for applications with limited separation of left and right speakers.

Digital Sound Control (optimal, jazz, rock, pop)

Digital Sound Control (or DSC) offers different sound settings tailored for specific musical styles.

Dynamic Bass Boost

Boosting bass response as much as 6 decibels (nearly 2 times more than normal) Dynamic Bass Boost yields full, rich tonal quality at all volume levels.

2-Way Bass Reflex Speaker System

Equipped with one 4" woofer and one piezo tweeter for crisp high tones.

AM/FM Stereo Digital Tuner

State-of-the-art precision tuning system insures precise, accurate station selection every time, along with the greatest performance and reliability available.

Design

Design Concept

Functional design and the use of metal finishing make this CD Micro System a contemporary object.

Ergonomic Control Layout

Convenient grouping of related functions along with a positive tactile feedback from front mounted controls optimize this model for comfort and convenience.

Detachable Cloth Speaker Grilles

Detachable cloth covered grilles protect delicate speaker components in a rich high-tech styling.

Convenience

MP-3 Playback

Download MP3 songs from the Internet on a PC and record them on a CD. This special "MP3-CD" can now be played on this Audio CD Player. One MP3-CD can carry up to 12 hours of music. Our sets are designed to playback MP3-CDs recorded with a bit-rate (quality level) between 32 kbps and 320 kbps. The set will also handle variable bit-rate recordings

Plays CD, CD-R, CD-RW and MP3 discs

The player offers 100% playback guarantee of CD, CD-Recordable, CD Rewritable and MP3 discs over the entire lifetime of the player. Even CD-RW audio recordings on computers can be used.

Logic Tape Deck

Offer the ability to switch from one function, such as fast forward, to another function, such as play, by remote control.

21-key Remote Control

This infrared remote control operates volume +/-, all CD functions (POWER/CD, NEXT, PREVIOUS, ALBUM UP/DOWN, PLAY, STOP, PAUSE, SHUFFLE, REPEAT, ►► and ◀◀), TAPE, TUNER, AUX, SLEEP, MUTE and Sound Enhancement features including Digital Sound Control, Dynamic Bass Boost and Incredible Surround.

40-Random Channel Presets

Random memory presets allow pre-programming of up to 40 AM and FM station frequencies into the tuner memory.

20-Track CD Random Program

Store up to 20 of your favorite CD track selections, to be played back in the order in which they are programmed anytime you like.

One-Touch CD Synchro Recording

One button allows the cassette deck and CD player to communicate with one another to synchronize the start of a recording on an analog audio cassette with the start of a CD or a CD program.

AUX Input

For connection of audio accessory pieces such as a DVD player, television, or external cassette deck.

Repeat

Repeat your favorite track.

Pause

Interrupts playback of a CD without returning to the beginning of the disc, so when play resumes, the music begins exactly where it stopped.

Next/Previous Skip

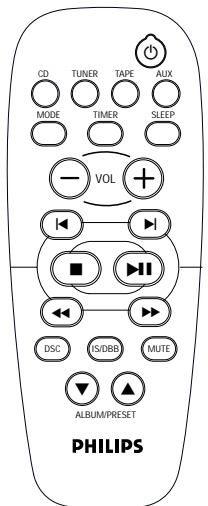

This two button feature offers you the opportunity to skip back to the previous track or skip up to the next track instantly.

Repeat track/disc/all

Repeat your favorite track, disc or all.

Clock/Timer & Sleep timer

Set the alarm portion of a built-in digital clock to wake you to music from your favorite CD, cassette tape or an AM/FM radio station at any desired time of the day. Sleep timer settings of 60, 45, 30 or 15 minutes.
