MCM7

Play MP3-CD

in Sophisticated Style with Great Sound

Specifically designed for one who appreciates the ultimate in technology and style, the MCM7 exudes finesse and quality. Unleash the audiophile in you and savor the enhanced sounds from your MP3-CD through powerful, dynamic speakers.

Enrich your sound experience

- Ferro Fluid Cone Dome Tweeters
- Flat metal cone woofer
- 2-Way Bass Reflex Speaker System with detachable grilles
- 2x50W RMS/ 100W total power

Longer listening, greater enjoyment

- 10 hours of MP3-CD music

Personalized sound settings

- Incredible Surround™ for enhanced audio enjoyment
- Treble and Bass Control for easy high and low tone settings

Sounds great too

- Elegant wood-finished speakers

PHILIPS

Specifications

Sound

- Output Power: 100 watts total power
- Sound Enhancement: Incredible Surround, Treble and Bass Control

Loudspeakers

- Main Speaker: 2 way, Bass Reflex Speaker System, 5.25" woofer, 2" tweeter, Speaker grilles detachable

Audio Playback

- Playback Media: CD, CD-R, CD-RW, MP3-CD
- Disc Playback Modes: 99-Track Programmable, Repeat/one/all/program, Shuffle Play
- Loader Type: Motorised, Tray
- Cassette Deck Technology: Full Logical
- Cassette Playback Modes: Autoreverse, Electronic Speed Control, Full Auto Stop, Tape Counter

Audio Recording

- Recording Media: Tape
- Tape Recording Enhancement: Automatic Recording Level, CD Synchro Start Recording, One-Touch Recording

Tuner/Reception/Transmission

- Auto digital tuning
- Station presets: 40

- Tuner Bands: FM Stereo, AM
- Tuner Enhancements: Auto Store, Easy Set (Plug & Play)

Connectivity

- Aux in: Line in
- Headphone: 3.5 mm
- Other connections: FM Antenna, AM Antenna

Convenience

- Alarms: CD Alarm, Radio Alarm, Tape alarm, Snooze, Sleep timer
- Clock: On main display
- Display Type: White FTD
- Indications: DIM mode
- Eco Power Standby: 0.5 watt

Accessories

- Included accessories: AC Power Cord, AM/FM Antenna
- Remote control: 32-key with 2xAA Batteries

Dimensions

- Set dimensions (W x H x D): 175 x 252 x 350 mm
- Main speaker dimensions (W x H x D): 175 x 252 x 215 mm
- Packaging dimensions (W x H x D): 524 x 353 x 408 mm
- Weight incl. Packaging: 12.9 kg

Detachable grilles (2-way LSB)

2-Way Bass Reflex Speaker System with detachable grilles

2x50W RMS/ 100W total power

RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. Essentially, amplifiers are limited by the electrical energy they can amplify and loudspeakers by the electrical energy they can convert into sound energy, without distorting the audio signal. The higher the wattage, the better the sound power emitted by the speaker.

10 hours of MP3-CD music

MP3 stands for "MPEG 1 Audio layer-3".MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music while bass controls the amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to playback music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.
