- **USB:** Free USB port

Dimensions

- **Main speaker dimensions (W x H x D):** 175 x 285 x 247 mm
- **Packaging dimensions (W x H x D):** 525 x 400 x 414 mm
- **Set dimensions (W x H x D):** 175 x 285 x 340 mm
- **Weight incl. Packaging:** 13 kg

Product highlights

Built-in Wi-Fi 802.11b

Wireless USB adapter

Wireless PC Link connects your PC to a Philips audio system wirelessly via Wi-Fi without requiring complicated network configuration. Wi-Fi is the leading industry standard for wireless networking, also known as IEEE802.11b. Simply install the wireless USB adapter driver provided and connect the wireless USB adapter to your PC. The control buttons on both your sound system and your remote control provide easy navigation and control of the MP3 music stored on your PC. Stream your favourite MP3 music from your PC to your Philips audio system from anywhere in your home. No cables!

50 hours of MP3-CD playback

MP3 is a revolutionary compression technology with which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hrs of music. With a 5-CD tray, it allows you to play 50 hours of music. MP3 has become the standard audio compression format, allowing quick and easy audio file transfer.

Class 'D' Amplifier

The Class 'D' Digital Amplifier takes an analogue signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, the Class 'D' Digital Amplifier has over 90% efficiency compared to traditional AB amplifiers. This high efficiency translates into a powerful amplifier with a small footprint.

2 x 75 W RMS/2500 W PMPO
