40 mm speaker driver

The 40 mm speaker driver is made of a composite mylar material for a highly sensitive yet powerful element that delivers sound without audible distortion.

Self adjusting inner headband

The inner headband of these Philips headphones makes it easy to obtain a perfect fit for your head. The mechanism adjusts automatically for comfort.

3 transmission channels

With a choice of three transmission channels, your listening pleasure is assured because you can easily switch to the one with the best reception.

Rechargeable system

The headphone set incorporates facilities for recharging the batteries.
