

# MMS305 Multi-channel Flat Panel speakers

## Hi-Fi PC Surround Sound

- **Active 80 Watts (RMS) Hi-Fi Multi-channel PC Speaker System**

High power for the most intense game effects or music with concert hall realism. Bring the Hi-Fi quality sound of your home theater entertainment system to your PC.

- **wOOx™ Bass Driver Technology – New!**

Philips' patented bass driver design provides rich deep bass from a deceptively small enclosure. Composed of a unique dual suspension design, wOOx bass technology delivers more dynamic bass and sound effects for gamers and music lovers alike.

- **Soft Flat Panel™ Satellite Speakers – New!**

All the performance you would expect from a high-quality sound system designed with an aesthetic quality usually reserved for your home audio system. Style and performance are perfectly matched!

- **Wireless Remote Control**

Place the speakers anywhere you want and still have all the control at your fingertips. With the easy-to-use wireless remote control you can adjust the volume, bass or treble, switch from one audio source to another, or simply press "wOOx"™ for more intense bass effects. All the flexibility you need... at the touch of a button.

- **Digital Sound Control**

Choose from the three pre-set keys; game, speech or music for optimal sound reproduction.

- **Input Selector**

Connect up to three audio sources at the same time directly to the speaker system. Three keys on the remote control are provided to make your audio device selection; a 4-channel input for your sound card and two stereo inputs for other audio devices.

- **Easy Placement**

Philips provides a variety options for positioning the satellite speakers according to personal preference: horizontal, vertical, or mount them directly on the wall.

- **Magnetically Shielded**

Prevents harmful distortion to your monitor, TV or other devices.

# MMS305 Multi-channel Flat Panel speakers

Bring the Hi-Fi quality of your home theater entertainment system to your PC!

The MMS305s deliver all the performance you would expect from a high-quality sound system with an aesthetic quality usually reserved for your home audio system. Style and performance are perfectly matched with the high power 40-watt subwoofer incorporating wOOx™ bass driver technology and new Soft Flat Panel™ speakers exclusively designed by Philips.

Place the speakers anywhere you want and still have all the control at your fingertips with the easy-to-use wireless remote control. And, the MMS305 enables you to connect up to three audio sources at the same time -- connect your PC, MP3 Player, CD Player – turn your PC speaker system into a complete audio entertainment system.
