## Product highlights

### Internet connected

Get 'one-button' access to on-line music, movie trailers, music videos, photo collections and Internet games on your TV and stereo. There's no need to download files first to your PC, or even turn the PC on to stream Internet multimedia content without hassle. Requires broadband Internet connection.

### Wireless PC Link

The product is connected to a stereo or TV and a wireless link is established between the PC and the product. Navigating PC multimedia content on your TV and stereo can be done using the remote control.

### Instant wireless PC Link

An out-of-the-box solution for if you don't have a wireless network, the Instant wireless PC Link connects your PC to your stereo and TV via a WiFi USB adaptor.

### Internet upgradeable

Stay up to date with new software upgrades that are automatically downloaded from the Internet via a broadband connection straight into your device.

### Online services<sup>3</sup>

Audio: Andante, MusicMatch Radio, Radio Free Virgin, Live365  
Launch.com, Playhouse Radio  
Video: iFilm, Yahoo movies, LaunchCast  
Pictures: Yahoo photos  
Fun: Simple online games, screensaver - visualizations

### WiFi 802.11

The WiFi standard means that no wires need to be installed between PC devices, PC peripherals and audio/video equipment located in different rooms.

### Class D™ Digital Amplifier

Class 'D' Digital Amplifier takes an analog signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, Class 'D' Digital Amplifier has greater than 90% efficiency compared to traditional AB amplifiers. This high efficiency translates into a powerful amplifier with a small footprint.

### ClearVoice™

Clearvoice™ is a Philips unique dialogue enhancer that clearly separates speech from action.
